DISTRICT C. E. CONVENTION IN SESSION

(Continued From Page One)

portant questions were asked and answered.

The reports of the district president and secretary were read and showed an upward tendency of the work. Some new societies were organized and others which had disbanded were resurrected, and the outlook seems very encouraging.

The aim for the world's Endeavor is one million members, the campaign to close July 1st, 1917.

The following officers were elected for the ensuing year:

Miss Hope Finck, Houston, Texas, president.

Mr. Fred Norris, Houston, Texas, secretary.

The locating of the next session was left in the hands of the officers.

The program this afternoon was carried out as planned. Tonight "A Mock Trial" was the order of the service.

The conference will meet tomorrow afternoon and night. Mr. Carl Lehman, a national worker, will have charge, and a great treat is in store. Don't miss it.

Nine societies were represented in this conference.

NEW YORK DAY BY DAY.

New York, March 3.—Tammany Hall may mean it and it may not, but nevertheless it is going to do the needful thing and go to Washington 1,000 strong to attend the inauguration of President Wilson on Monday, relations between the White House and Fourteenth Street have not improved as greatly as friends of both sides would like to see them, but the tension is not so tight as it was a few years ago. Perhaps a few plums that Tammany considers worth while may yet fall in the direction of the wigwam. At any rate, Charles F. Murphy, head of Tammany Hall, believes that President Wilson will support the plan to make James W. Gerard, the returning ambassador to Germany a candidate for mayor of New York city next fall.

German submarines are threatening to sink the newest Paris fashions for American women as well as American ships. In the region of Fifth avenue shops that are headquarters for feminine styles there is a state of uncertainty that seriously threatens spring gowns and Easter hats. This is the time of the year when the clever representatives of the leading establishments that import French models go to Paris to pick the season's newest and choicest creations of fashion for American women. The submarine menace has temporarily blocked this ocean travel.

No Doubt of Their Loyalty.
Most of the German beer saloons are now displaying the Stars and stripes over the bar and the old chromos and prints of the Kaiser, Von Moltke, Bismark and Frederick the Great are being gradually replaced by pictures of Washington, Lincoln, Grant and Woodrow Wilson. Bartenders and waiters in all the best German cafes have been instructed to avoid "war" conversations with customers, and a similar rule prevails in barber shops, where a sudden silence is making life difficult for a lot of conversational Teutons.

TO TAX ROLLING STOCK.
A bill to provide for the rendition of rolling stock of railroads in school districts, road districts, levee districts and drainage districts in each county of the state, was introduced by Senator Dechard in the senate yesterday. The author of the bill is Judge J. T. Maloney of this city.

CRAPSHOOTERS FINED.
Deputy Marshal Worley arrested four craps shooters in a house in the northwestern part of the city last night. All four of them pleaded guilty in the city court today and were fined \$10 and costs which total \$15.

NOTICE TO POULTRYMEN.
There will be a regular meeting of the Brazos County Poultry Association Monday night at 7:30 at the Commercial Club rooms. We want everyone interested in poultry to be on hand, as matters will come before this meeting that will be of interest to all. J. M. Spreckelmeyer, president.

CUT FLOWERS.
Sweet Peas, Carnations (finest grown), Easter Lilies, Calla Lilies, Freesia's, Alliums, Geraniums, Narcissus, Violets, Roses, Tomato and Eggplants, Sweet and Hot Peppers—No plant order accepted for less than \$1.00.

WEATHER BULLETIN

Washington, D. C. March 3.—Last bulletin gave forecast of warm waves to cross continent Feb. 23 to March 4 and 5 to 9, storm waves March 1 to 5 and 6 to 10, cool waves March 3 to 7 and 8 to 12. These storms will not be great but of greater force than preceding. Early March is noted for weather extremes and a strong average is expected from March 3 to 10. This includes March 5, when the president is to be inaugurated, but we do not forecast for Washington, D. C. The U. S. Weather Bureau must answer all weather questions for this city. But people coming to the inauguration from northern sections and the middle west will probably encounter some rough weather before they get here.

Next warm wave will reach Vancouver about March 10 and temperatures will rise on all the Pacific slope. It will cross crest of Rockies by close of March 11, plains section 12, meridian 90, great lakes and Ohio valleys 13, eastern sections 14, reaching vicinity of Newfoundland about March 15.

Storm wave will follow about one day behind warm wave and cool wave about one day behind storm wave. Temperatures preceding this storm will go higher than usual and following it will come a cold wave in the northern sections and a marked cool wave in the cotton states. Extensive rains will accompany this storm but they will be light, leaving some sections in the cotton states in need of moisture. Northern sections, generally, have sufficient moisture for present needs, frozen in their soil and that moisture will be unusually valuable.

A sudden increase in storm forces is expected about March 15 and 16, at which time the storms are expected to be east of meridian 90. Better look out for a squall. We are not expecting much precipitation in March but we are expecting to observe an unusualness in the cotton states about moisture before end of this month. The crop season of 1917 will cause greater interest than any that has occurred for ten years.

BASEBALL AT A. AND M.
Season Opens Wednesday, March 7th, With S. W. I. of Louisiana.

The cadets at A. and M. are anxiously awaiting the opening of the baseball season. S. W. I. of Louisiana is scheduled to ring up the curtain Wednesday, March 7th, at Kyle Field. Very little is known of the opposition in the opening game for the Aggies, except that they are bringing the same team that tied Louisiana State in the first game last year and held them to a one to nothing contest in the next. This is the first Texas invasion by this Louisiana team and it is scheduled for the 7th and 8th at College and for the 9th and 10th at Huntsville. These games were scheduled to give the Aggies a workout on the home grounds before the games with Rice at Houston on March 23rd and 24th.

Ideal weather for playing has worked wonders for the A. and M. squad. The kinks in their arms have been unlimbered and the hitters have been getting their eyes on the ball in a way that will mean untold joy for the Aggie fans. Just how the team will line up for the contest is for the time uncertain. Coach Graves is hardly satisfied with last year's infield and has been making a few shifts. Four men have been trying for the position of catcher, made vacant when Captain Russell left. Panny Coleman of the 1915-16 squad, Wrinkle Moore and Tommy Davis, second string men, and Ellis, who was a freshman last year, aspire to the receiving end of the battery. They all bid fair to take a turn behind the mask. Priester has been shifted to second base, but whether this is permanent is problematical. The pitching staff has been materially strengthened this week by the addition of Penny Thornton of the basket ball team. Griesbeck, all-state forward of the basket ball team, is out again for the position in center field.

A great many of the Aggie supporters are anxious for a big league team at College during the week of March 15th and Director Driver is corresponding with two teams at present and possibly will be able to secure a team for the cadets at College during that week.

DR. A. LICHENSTEIN
COMING TO BRYAN.

The church at Beaumont, Texas, writes:

"You know of Dr. A. Lichtenstein, who is superintendent of Jewish missions. He will be in your town next Sunday and we would be glad for you to give him a service. His heart goes out to Israel like the heart of Paul the Apostle. He has spoken acceptably in the churches of this city. I am sure your people will enjoy hearing him tell of the work he is doing."
